### How to Destroy Catarrh Germs and End Catarrh Forever

A Specialist's Advice.

Catarrh is a germ disease and the only way to cure it so it will stay cured and never come back is to kill and drive out of your system the catarrhal germs which have found lodgement there. When the germs go the catarrh will stop. The trouble with most treatments, like sprays, salves, creams, greasy balms, lotions, etc., is that they give only temporary relief by opening up for a while the clogged head, throat and nostrils. In a little time the catarrh comes back as bad as ever.

nead, throat and nostriis. In a little time the catarrh comes back as bad as ever.

People who suffer continually from catarrh should drop such temporary makeshifts and get something that really gets at the root of the disease and stamps it out. There is nothing better for such cases than breathing into your nose and lungs the pleasant soothing, healing, germ destroying air of Hyomei (pronounced High-o-me), made from purest oil of Eucalyptus and combined with other powerful healing, antisoptic and germ destroying ingredients. Hyomei penetrates and heals the inflamed, swollen membranes of your nose and throat, stops discharges, clears the passages and completely overcomes the disease by destroying its cause. For catarrh germs cannot live in your body after Hyomei reaches them. Lee & Osgood and many other good druggists in Norwich and vicinity have long solid Hyomei on a positive guarantee of successful results or money back and find this generous policy pays. Most druggists are now giving a pocket inhaler made from hard rubber with every complete treatment sold. This makes a very simple, easy and convenient as well as a thoroughly reliable means of treating simple, easy and convenient as well as a thoroughly reliable means of treating by the best known method this danger-ous and often disgusting disease,

# You will like the taste of Cottolene-cooked foods

In addition to making food better, Cottolene makes it taste better-gives it more appeal to the appetite-a relish that cannot be obtained with any other shortening or cooking fat.

Cottolene is itself a choice pure food product. It consists of the most highly refined cottonseed oil, combined with selected beef stearine.

Attempts to imitate Cottolene and to produce substitutes for it have failed because only a specially refined highest grade cottonseed oil is used exclusively in Cottolene, and the beef stearine is from choice leaf beef suet.

# Cottolene

has for a quarter of a century been a leader among pure food products. Its supremacy over all other shortening and cooking fats remains unchallenged.

Insist upon getting real Cottolene, and satisfaction must be yours. Make your biscuits, your pies and your cakes

more tempting, more pleasing to the palate, more easily digested, by using Cottolene for shortening.

For frying, use Cottolene over and over. It does not absorb tastes or odors. Always heat it slowly and use one-third less than of any other shortening or frying fat. It is always ready for instant use. No chopping or crushing is necessary. It

mixes readily with flour and creams up beautifully.

in an accident while he was in South America many years ago proved a great drawback to his ambitions, which were seemingly in a fair way to be realized. Handicapped in his profession, he directed his attention to other lines of endeavor and eventually entered the newspaper field. He was a man of more than ordinary ability and attainments and physical reasons alone kept him from laboring in a larger field than was presented to him

this section.

For a number of years he was in charge of the Danielson Department of The Putnam Standard, which later became The Windham County Observ-er, and made his home in Danielson, where he made many warm and en-during friendships. Age evenually took from him that field of his labors and for fourteen years he has made his home in Pomfret. He was a native of the town of

This idea fashed out in Killingly Thursday, but fisshed out in Killingly Thursday, but seemingly only by circumstances did it precede a similar announcement from this city, for plans for the formation of such a club have been conducted quietly here for some time.

The result of this activity has been the acquirement of the Sidney Heath farm, about two miles south of the city, by a number of business men who have had the matter in mind. At Saturday night's meeting it is planwho have had the matter in mind. At Saturday night's meeting it is planned to effect temporary organization and lay plans for reveloping a proposition that it is hoped will have a great many supporters.
